NOTES

Wow! It's that time of year again – where did it go?

Season's greetings to everybody. Lets hope Santa is generous and we all get what we are hoping for without getting swept off the face of the planet by global warming, fracking or brexit.

Although I am not quite there yet I am approaching the end of Jack London's truck negatives. If anybody has any leads on another collection that could be added to the archive I would be very pleased to hear from them.

It might be worth mentioning that I am always please to exchange prints for negatives and I do have a very large (several thousand) collection of original 3½ x 5½ black and white truck photos from the darkroom days that I could exchange for a decent negative collection.

The separate list of modern truck photos (The DNC range) is still available and the price for these is still in line with PhotoNews – 80p each. I can keep this price low because, being digital images, there is no need to spend time with Photoshop removing all the dust and scratches and sharpening the images. Again, an SAE would be appreciated, as it is a rather large list.

All the best

Bob
